**THREE DECORATIVE COLUMNS ACCENT THE FACADE OF THE BUCKINGHAM**, gently highlighting the covered portico of this beautiful home. Each of the three bedrooms in this split floor plan enjoys private access to one of two bathrooms, as does the den or media room, which is separated from the central living area by double doors just off the great room. In addition to an expansive great room with vaulted ceilings, the living area offers a kitchen with center island, dining room, and slider access to an optional screened lanai beyond. The master suite includes nearly an entire wall of closet space and a master bathroom with a double vanity, garden tub and separate shower. Additional features include a utility room that is conveniently located off the master suite and kitchen and leads to the two-car garage.
