THE KELLIE

AT FIRST GLANCE, THE KELLIE has a quiet charm with decorative columns and covered portico, but inside you'll find much more than the traditional home. At the front of the home are a double entry den and a separate tech center with a built-in computer desk. Beyond is an expansive great room with vaulted ceilings, a dining room, subtly set to the side, and a kitchen with center island. The standard screened lanai is perfectly positioned off the dining room for outdoor living and entertaining. The master suite is the peak of this three-bedroom, two-bath home. -Situated quietly at the rear of the home, it offers a large sleeping area, a triple-sized walk-in closet, and a master bathroom with double vanity, garden tub, and separate shower. Additional features of this home include a two-car garage and utility room.
