# THE ST. MICHAEL

**A LARGE FRONT PORCH GIVES THE ST. MICHAEL** a charming traditional flavor. Entering through its covered portico, you cross a tiled entryway into a spacious open area that encompasses the great room, dining room and kitchen. Truly open to the dining room and great room, the kitchen features a large pantry and center island, also providing convenient access to the master suite on one side and utility room and two-car garage on the other. The family room features a decorative plant shelf that spans almost the entire width of the home and a sliding glass door that reveals the optional screened lanai beyond. The split three-bedroom, two-bath floor plan includes a master suite with walk-in closet and private bath. Two linen closets and a pantry enhance the home with additional storage space.
